

Collaborative Training Initiatives with Development Partners

The following trainings have been conducted in collaboration with key development partners, including UNICEF, PRMPU, AGAHE, WaterAid, and RBWR Quetta. These initiatives are designed to strengthen institutional capacity, enhance technical expertise, and promote sustainable and climate-resilient practices in the water and sanitation sector.

List of Trainings

- WASH Systems Strengthening and Climate Resilience
- Costing and Estimation of Water and Sanitation Systems
- Occupational Health and Safety
- Project Management, Procurement and Contract Management (including PPRA Rules)
- Leadership, Management and Strategy for Improved Local Service Delivery
- Performance Monitoring, Evaluation and Accountability (Benchmarking and KPIs)
- Councilors Training on Water and Sanitation Governance
- Financial Management (Budgeting, Planning, Local Government Finance and Taxation)
- Train the Trainers (Teaching, Learning, Evaluation and Module Development)
- Groundwater Management and Climate Resilience in the Water Sector
- Capacity Building for Climate-Resilient WASH Infrastructure, Climate Financing and GHG Emissions
- Integrated Water Resources Management and Groundwater Monitoring
- Capacity Building on Social Behavior Change and ODF Mobilization
